PCBs disposed prior to '78 w/Dan Kraft

Gene

It is generally advised that you work with the Regional staff on issues like this.

<http://www.epa.gov/pcb/coordin.html> for the current list or

Region 2 - New Jersey, New York, Puerto Rico, US Virgin Islands

Dan Kraft - phone - (732) 321-6669
Ann Finnegan - phone - (732) 906-6177
Vivian Chin - phone - (732) 906-6179
Region 2 FAX - (732) 321-6788
John Brogard (Permits) - phone - (212) 637-4162, FAX - 212-637-4437

This should be what you need

Hello:

I am a NJDEP case manager for a site in West Caldwell, Essex County, NJ. Previously, I have read approval letters from the United States Environmental Protection Agency (USEPA) which is required in order for sites to leave over 100-ppm of PCB contamination in soils, above the water table, on-site. I would like to know who I can speak to regarding this topic. I understand that the responsible party would request such a letter upon NJDEP's site-specific Impact to Ground Water Soil Cleanup Criteria. Also, I would like to know the USEPA's final rules for disposal of PCBs. The most recent that I have read are the rules that appeared in the Federal Register on June 29, 1998 (Volume 63,

prior to the
effective
date of
the excavation

Number 124).

I will look forward to your reply.
Sincerely, Gene

Gene P. Fowler, CPG
